

To Whom It May Concern:

I have become aware that you are trying to violate the First Amendment rights of satellite radio producers and listeners by proposing the National Association of Broadcaster's petition 04-160. This petition seeks to eliminate XM instant traffic and weather broadcasting from the XM satellite radio lineup.

I benefit from both satellite radio traffic and weather programming, and I call on you to protect these services against unsuccessfully competing private media interests.

Thank you,

John Wilson
Boulder, CO
